The Population Census is to be taken throughout Japan as of October 1, 1980.

The Population Census, which has been conducted every five years since 1920, is one of the most important statistical surveys in this country and enumerates all inhabitants to investigate their demographic and socio-economic characteristics. Statistics to be compiled from the census returns will be used not only by the central and the local governments but also by a variety of other users.

You are requested to report in this questionnaire on all persons who usually live in your household. Please fill in the questionnaire before the enumerator visits you again to collect it.

Your answers are confidential. This questionnaire will be used only for statistical purposes. Please answer the questions to the best of your knowledge.
