

1. 土地

1. 經緯度

Table of geographical coordinates (Longitude and Latitude) for various islands and regions. Columns include location (方位), longitude (經度極點), and latitude (緯度極點).

2. 周圍及面積

3. 府縣別面積 大正九年十月一日

Table of area and perimeter data. It includes two main tables: one for perimeter (周圍) and one for area (面積). Both tables list locations (地方), number of islands (屬島數), and area in square meters (面積) and percentage (千分比例).

Footnote text explaining the data source and methodology for the area and perimeter measurements, mentioning the use of specific measurement methods and the inclusion of certain islands.
